

**Purchase of other supplies for the implementation of your operational plan**

Updated : 05-Jun-20

Some companies in our region may need other supplies to implement their operational plan in order to comply with public health measures.

To assist businesses that may not have a current supplier or may not be familiar with the market, the Edmundston Economic Recovery Action Group has created a list of some potential sources of supply of PPE which can be used as reference.

These suppliers have confirmed their interest. Companies that purchase supplies are solely responsible to ensure that it meets their needs and requirements. Businesses are also responsible to contact these suppliers to obtain further details, such as product specifications, available quantities and pricing. This list will be updated on a regular basis. Suppliers are listed in alphabetical order.

There may be other local suppliers, available to meet your needs. If you are a business that is able to provide the products or services below, please call 506-739-2080 to register.
