

**Financial assistance
program to cover a
portion of the costs of
connection to municipal
water and sewer services
for housing projects of 4+
dwellings**

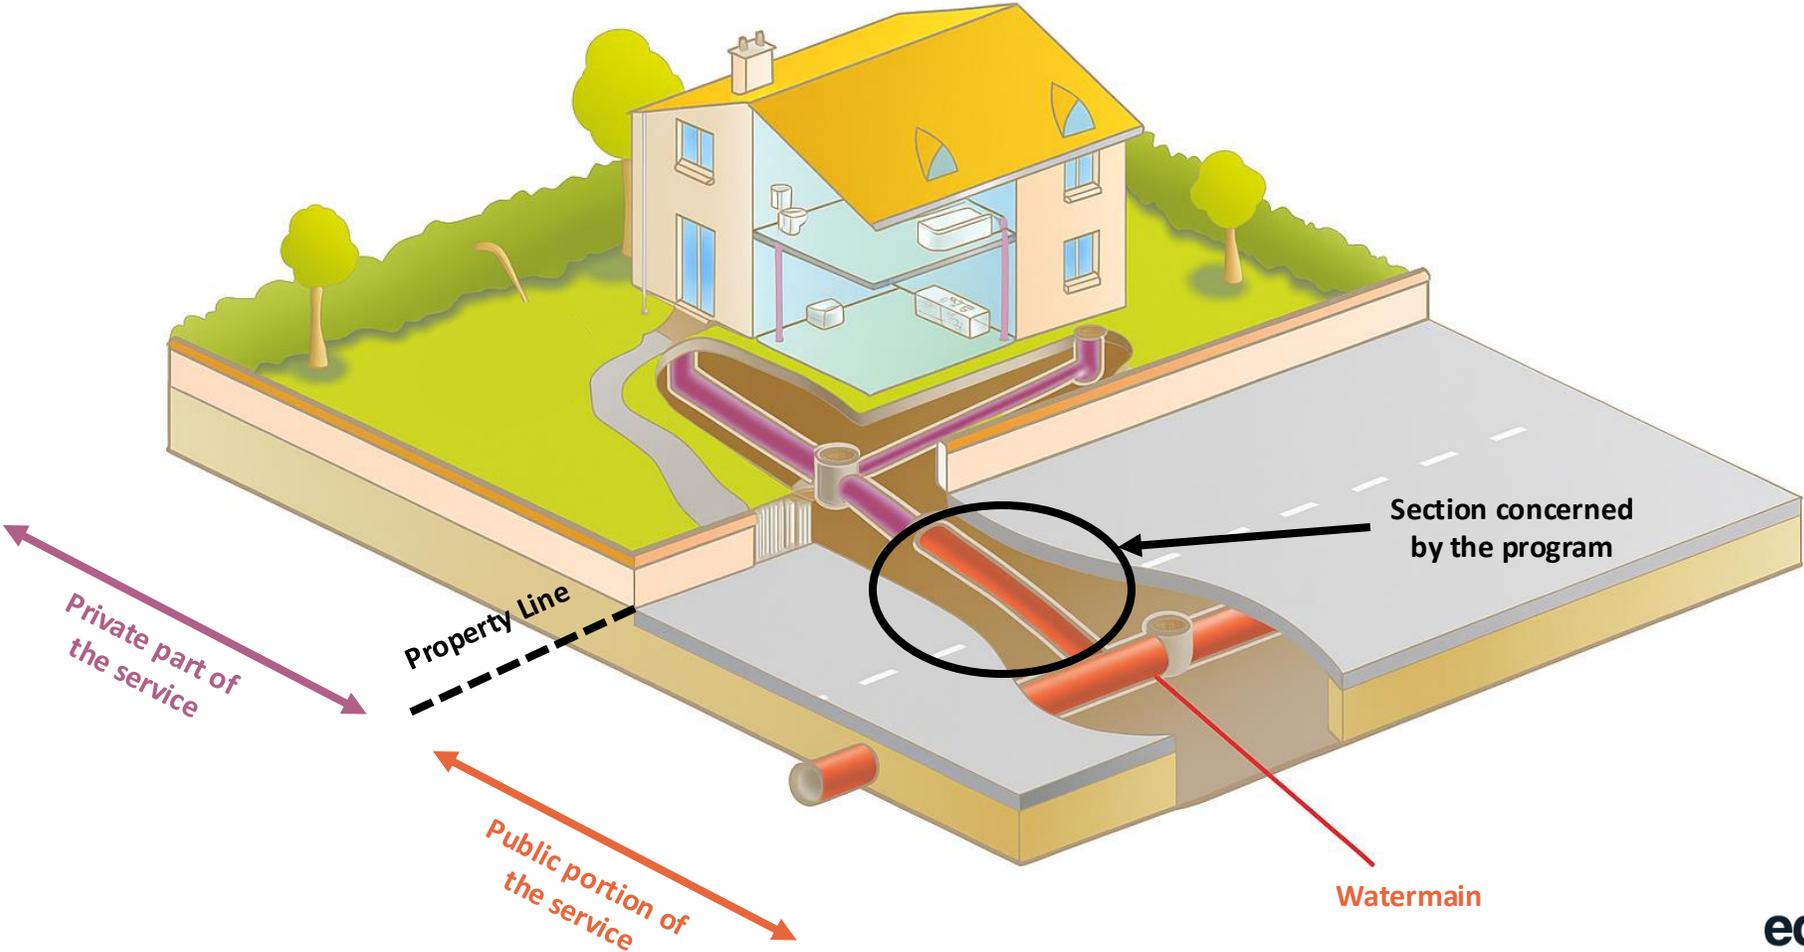

Financial assistance program to cover a portion of the costs of connection to municipal water and sewer services

- This program is open to private-sector developers, non-profit organizations (NPOs) and cooperatives wishing to create **a minimum of four net new missing-link housing units** on land within Edmundston's municipal boundaries.
- The program is available until December 31, 2026.
- The dwellings must be built on serviced land within the municipal boundaries of Edmundston.

Financial assistance program to cover a portion of the costs of connection to municipal water and sewer services

- Under this program, the municipality agrees to pay a portion of the following costs:
 - installation of potable water and sewer services from the water and sewer municipal main lines to the property line;
 - restoration of the municipal right-of-way, including paving, curbs, sidewalks, etc.

Financial assistance program to cover a portion of the costs of connection to municipal water and sewer services

Financial assistance program to cover a portion of the costs of connection to municipal water and sewer services

Amounts offered and specific conditions

- The municipality's contribution is applicable per property and according to the following conditions:
 - A) \$7,500 for the construction of four to seven dwellings;
 - B) \$10,000 for the construction of eight to 11 dwellings;
 - C) \$12,500 for construction of 12 units or more.
- This contribution, if approved, is payable when the building is habitable.
